## Seasons Change: Wisdom

Journalists believe they know what is going on in the world, and historians think they can explain what has happened in the past. But a true understanding of the unfolding events in world history requires wisdom, knowledge, and understanding. It requires knowing that God has a plan for this planet and that everything in the past has been orchestrated under the governing eye of His Providence. Everything occurring now is aligning with His long-term intentions. And the Most High rules over the affairs of men (see Daniel 4:17).

We can gain understanding in these things by reading the books of Daniel, Esther, and Revelation. Yet we would also be wise to look over the course of our own individual lives and see how the guiding goodness of God has led our steps, our stops, and every stage along the way. Whatever season you are in, ask the Lord for wisdom to discern His ways and to trust His guidance.

***God has a plan and a purpose for the world and governs history such that everything from the least to the greatest contributes to the achievement of that plan and purpose. Robert Rothwell***

At the conclusion of the services, the WMU ladies will be serving traditional dishes from our focus country, Greece in the fellowship hall. We hope to see you there and bring a friend with you.
